OUTSTANDING ALTERNATIVES IN STATIC CONTROL

GL9100 Series ESD Hot Gloves

Have static control and heat protection

in one cleanroom compatible glove.

Designed for printed circuit boards, hybrid circuits, semiconductors and other processes, the GL9100 series ESD safe hot glove provides static protection without compromising cleanliness. Gloves resist heat up to 302°F or 150°C.

These gloves use a polyester knit fabric suffused with carbon fiber. Heat protection is enhanced with a 100% inner tricot knit polyester fabric liner and a full 14 inch length. A cuff mounted grounding snap is also included.

Meets or exceeds requirements of ANSI ESD-S20.20 and the recommendations of ESD 4.1.

Applications:

ESD Anti-fatigue mats provide a path-to-ground for workers wearing ESD footwear as well as reduce worker discomfort from standing for long periods

Specifications:

Color:	White			
Face Fabric:	Polyester knit fabric suffused with carbon fiber.			
Inner Liner:	100% inner tricot knit polyester fabric.			
Length:	14" Length			
Temperature:	Resist up to 302°F(150°C)			
Electrical:	RTT < 1 x 10^10 Ohms/Sq.			
Tribocharging:	Loe: typical results less than 300 volts			
Part Numbers:				
GL9101:	Small			
GL9102:	Medium			
GL9103:	Large			
GL9104:	Extra Large			

Features

- Have Static Control and Heat Resistance In the Same Glove
- Gloves resist up to 302°F(150°C)
- Cuff Mounted 4mm Grounding Snap
- 100% inner tricot knit polyester fabric
- Cleanroom Safe
