

MIDCON WIRING SOLUTIONS

RF Adapters®

Introduction:

The Midcon RF product line provides a variation of RF Coaxial adapters ranging in frequencies from DC-110 GHz. These high performance, low-cost adapters provide between and in-between series options. These adapters allow the end user to extend the life of the cabled connector.

Benefits:

- 5G Applications Between & In-Between Series
- Low Cost
- Quick To Market, Short Lead Times
- DC-110 GHz
- Test & Measurement Applications
- Bench Top Testing
- Commercial Applications
- Military & Defense
